

Research Assistants wanted for 12-month project

Computerlinguists

20h/ week or 2x10h/ week 

Period: expected October 2021- September 2022

reconva is a Potsdam-based start-up with the aim of improving healthcare for patients.

To this end, we have developed the recovery consultation in the Virtual Ward Room and enable patients to have a trusting exchange with care professionals in protected chat rooms during the healing and recovery phase.

For the support of the recovery counselors and to secure their expertise, we have developed CHRIS-
Corporated Health Reconvalescence Information Support-
CHRIS is trained from real chats and ---- **this is exactly what we need you for!**

We need you for:

-  creation of annotation guidelines
-  annotation in RasaX, collaboration in chat development on RasaX
-  language- and text analysis, implementation of solution approaches, bi-directional
-  cooperation with project partner clinic and research institute
-  cooperation in the formulation of scientific approaches

You should bring with you:

-  Good German- and excellent English skills
-  Profound knowledge in formal languages, eventually programming skills
-  Independently working, high self-motivation, **very welcome are impulse givers!**
-  Interest in health and medical contexts
-  Excellent sense of language and lot's of curiosity

We are also happy to receive APPLICATIONTANDEMS:

Apply in a team of 2 and show us how you ideally complement each other!

German - English?

Linguistics - Computers?

Structured - Creativ?

We are convinced that the best results are achieved through trusting collaboration and are committed to diversity in every respect.

What we offer:

-  Optional possibility of a topic adaptation for bachelor or master thesis
-  Flexible work location and schedule
-  location reconva in Babelsberg at the film studios
